Sancrisoft

FULL-STACK DEVELOPER

Medellín

Mobile Developer

Oct 2023 - Feb 2024

- Developed and maintained web applications using Node.js, enhancing functionality and user experience across various projects.
- Led the development of iOS applications, focusing on robust design and seamless user interaction to meet high-quality standards.
- Served as a Frontend Developer, creating dynamic user interfaces with React.js and optimizing mobile applications with React Native.
- Managed database interactions and structured SQL queries to ensure efficient data storage, retrieval, and integrity for enterprise applications.
- Utilized JavaScript to implement interactive features and improve the performance of web and mobile applications, ensuring cross-platform compatibility.
- Engaged in the development and enhancement of mobile applications, employing React Native for cross-platform functionality and user engagement.
- Contributed to the maintenance and evolution of legacy code applications, applying modern development practices to improve stability and performance.
- Worked on enterprise-level applications, focusing on scalability, security, and user-centric features to support business processes and workflows.
- Resolved bugs in React Native applications, enhancing stability and providing a seamless user experience across all mobile platforms.

ArcDesign

MOBILE APP DEVELOPER

Jul 2023 - Present

- Developed a Dashboard for the company's clients to track their projects, enhancing user experience and project management.
- Developed mobile apps such as KidWay and HiWay, with HiWay offering real-time bus tracking, enhancing user mobility and convenience.
- Engineered an ETL process for HiWay, ensuring accurate and timely data extraction, transformation, and loading for optimal app performance.
- Currently working on a machine learning model to optimize bus routes, aiming to improve transit efficiency and reduce travel times for users.

Design Systems Inno

Medellín

CO-FOUNDER AND MOBILE-WEB DEVELOPER

Jan 2022 - Jun 2023

- Championed advanced frontend technologies such as React, React Native, and Figma, ensuring state-of-the-art web and mobile interfaces.
- Engaged closely with backend teams, UI/UX designers, and stakeholders to create integrated solutions tailored to user needs.
- Prioritized user-centered designs, guaranteeing intuitive, accessible, and responsive digital experiences for a diverse user base.

Brain Labs S.A.S

Medellín

FRONTEND DEVELOPER

Jun 2021 - May 2022

- Led the development of the web platform using React JS with Redux, ensuring a seamless user experience and efficient data flow.
- Collaborated closely with backend and IoT teams, contributing to AI-driven solutions that enhanced the platform's capabilities and real-time data processing.

Education

Universidad de Antioquia

Medellín, Colombia
